Trade Association Events

Trade Associations including Rail Alliance, Rail Forum Midlands, Railway Industry Association and RSSB will all add content to the day providing visitors with great opportunity to meet with customers and suppliers at the Rolling Stock Networking event. The additional events offer real substance and interest to the visitors.

Rail Business Daily

We are delighted to announce that railbusinessdaily.com will host a **high-profile conference** at Rolling Stock Networking (RSN).

The conference will feature leading industry professionals who will share their knowledge, experience and innovative working practices during a series of sessions throughout the day. With speakers drawn from train operating companies, freight operators and the broader rail industry, the presenters and topics will undoubtedly have something of interest to showcase for all delegates.

An Accessible Rail Networking Event with Something for Everyone.

Rolling Stock Networking events give companies of all sizes active in the passenger and freight rolling stock sector an unmissable opportunity to meet customers and suppliers by taking part in a truly vibrant international event in the heart of the industry in Derby, UK.

Following the huge success of RIN we have been inundated with requests from rolling stock organisations to provide a similar event for their businesses. We have listened and have now established RSN to give them the same great opportunities for growth and collaboration, whilst offering some of the lowest exhibitor costs available at a large scale, full day event.

Our pricing is set to provide SME's, Micro Companies and Universities with the same opportunity to gain access to the Rail Market normally enjoyed by much larger companies.

Meet The Silver Sponsor

Westermo

Reliable & Versatile Train Networks

The use of IP technology has become the standard, over the last few years, for creating the data communication backbone used by the Train Control Management Systems (TCMS), Passenger Information Systems (PIS) and Infotainment Systems on trains. Robust Ethernet switches featuring a range of IP networking protocols are being used to build these networks which now are absolutely critical to the operation of the train.

As more and more different types of equipment are connected to these networks the need for more ports and capacity is created on the switches. More equipment also means that more cables need to be installed both power and data. PoE (Power over Ethernet) technology is the ideal solution to this issue where end devices can be powered through the network cable resulting in significant cost and space savings.

Meet Exhibitors Great and Small

With Major Companies exhibiting including CAF, Vivarail, LPA, Mott MacDonald and Rail Operations Group, to name but a few and enjoying the support of Railway Industry Association, Rail Alliance, Rail Forum Midlands, Rail Freight Group and RSSB; Rolling Stock Networking is shaping up to be a major event in the Railway Calendar.

Both CAF and Bombardier Hitachi HS2 are hoping to meet and develop suppliers. Many exhibitors have exciting innovations to offer including the latest in interior supplies, componentry, consultancy services and much, much more. RSN is the go to event in July 2019 for anyone who is active in the Freight and Passenger Transport sector.

ENTRANCE to RSN 2019 and all surrounding events is ENTIRELY FREE. www.rsnevents.co.uk

Meet the Lead Sponsor

RSN (Rolling Stock Networking) will continue the inexorable growth profile of the highly successful RIN (Rail Infrastructure Networking) series of events, with a further Networking event specifically for those in the Traction and Rolling Stock Market.

"Participants at RIN have always asked us to broaden our networking platform to cover Rolling Stock, we listened and are proud to announce RSN 2019 as a large scale, full day Rolling Stock event offering over 100 stand spaces. This provides an incredible opportunity for companies of all budgets to reach train operators, leasing companies, consultancies, new builders and the rolling stock supply chain.

Jobson James Rail, Lead Sponsor said "RSN will build upon the popularity of our infrastructure event and the RIN Brand. It will provide wider and complementary cross sector exposure for companies large and small, operating in the Traction and Rolling Stock market. The exhibitor price is set at an exceptionally low price to reflect our continued aim to promote the growth of those participating in all areas of the Rail Market.

Our aspiration is to make exhibiting accessible for companies of all budgets to meet and network in the friendly and collaborative atmosphere that has become a hallmark of our events.

What makes Rolling Stock Networking Different.

An exhibitor price far lower than any other we know of, for a comparable scale of event

A superb networking platform offering access to customers and suppliers regardless of size or market position

Opportunity for companies large and small to exhibit in the friendly and collaborative atmosphere that has become a trademark of our events

An inclusive event promoting the valuable role of academia and encouraging the participation of our next generation of railway professionals

Recognition of all sectors active in the delivery of the Freight and Passenger carrying railway

All of our events are entirely free to attend

Unrivalled opportunities for growth and collaboration

Make new contacts and reinforce existing relationships

Keep up to date with the industry, its products and services

Additional attractions organised by Trade Bodies

Network with a wide range of businesses all under one roof

A free business profile in the railbusinessdaily.com online directory

The assistance of our team to provide marketing of your company via our web site, contacts and promotional activity

10% discount for all RSN exhibitors for all articles submitted as news on the Rail Business Daily Service (Promo Code Applies)

Breakfast bag and coffee for all exhibitors during set up.

Exhibitor Focus

There are over 100 Exhibitors at the Time of Press and more in process, here is a snapshot of some of the exhibitors.

RailBusinessDaily.com Conference at RSN 2019

Be sure to sign up to RailBusinessDaily to be the first to know about all of the RIN and RSN family of events this is the service RSN uses for our general marketing.

David McLoughlin, CEO at railbusinessdaily.com, said: "RSN is already drawing the crowds and we are really pleased that the organisers have agreed to let us play our part in what promises to be a fantastic day. We have already identified five very high profile speakers and details will be announced via railbusinessdaily.com in the coming weeks. If you haven't booked already, it isn't too late to do so with both delegate and sponsorship opportunities available for anyone who has an interest in all things rolling stock. We hope you can join us at our conference."
